

JEC-Always a Step Ahead

AccuLAB

Best Solution for

- Packaging machine
- Dosing and filling with high accuracy
- Pilot and batching system in Laboratory
- Pharmaceutical and Biotechnology with hygienic engineering

Features

- A single body of rotor case and gear housing
- Unique bearing block design
- Lower pulsation and high accuracy with multi-lobe
- Universal mount design
- Front loading seal and flushing seal available
- Optional complete package with inverter unit

Technical Data

- Displacement : 0.02, 0.03 liters/rev.
- Pressure up to 4 bar Temperature up to 150 °C
- 1/2" ferrule port STD. Optional DIN, IDF, SMS, RJT
- Fully meets 3A, FDA, EHEDG SUS316 STD.
Optional SUS316L
- TC/Antimon Carbon STD.
